☽ **VIRGO SOLAR ECLIPSE HOROSCOPE:** ☽
Where can you make a change or fresh start?

The September 1 Virgo new moon is also a game-changing solar eclipse.

Aries: Your health, organization and fitness get a revamp. No excuses—just try that new yoga studio, launch a decluttering mission, commit to eating clean.

Taurus: A radical new approach to love, creativity and self expression is in the cards. Reveal your passion instead of toying the line. A pregnancy is possible.

Gemini: Home, family and emotions are touched by this eclipse. Time for a move, a decor overhaul or a fresh start with a female friend or relative?

For more about how the solar eclipse will impact your sign, read our [Virgo Solar Eclipse post](#) and your AstroTwins [Weekly Horoscopes](#).
